

CALL FOR CAUTION AGAINST FIRE!

Whereas, in concentrating her energies to produce implements of war for Victory, Canada calls for the conservation of all her resources, and

Whereas the full effort of Canada can only be achieved by eliminating all forms of waste, particularly losses by fire, and

Whereas Canada's average loss of property by fire in the last five years has exceeded \$23,000,000 annually

Now be it resolved, that every Canadian undertakes to exercise the greatest care, whether in the factory or the home, so that fire losses will be reduced to the minimum.

HELP CONSERVE RESOURCES

FIRE LOSSES AID THE ENEMY
